Henderson, NV. 89074

Dear Scott,

I work for Dr. Nita Patel a dermatologist in Marina Del Rey, California. The Doctor gave me some samples of your 25% Transdermal Vitamin C cream to use so that I could give her feedback on the efficacy of the product. I have used it for 3 months and have seen a significant improvement. It has tightened my skin and I see a considerable reduction in lines and wrinkles particularly around my sensitive eye area. Unlike other "wrinkle removers" such as other vitamin C formulas, retinoic acid and retinol, AHA's and BHA's I experienced no irritation. This was remarkable in light of the fact that your product uses a higher concentration of the active ingredient than these other products.

As Dr. Patel's office administrator, I sample virtually all the physician-dispensed products. Your Cosmepure 25% Transdermal Vitamin C product has produced the best results of any of the anti-aging formulas that I have used thus far. Please let me know how I may purchase this product. Thank you.

Sincerely,

Ora Corneron
